Subject: TIP Amendment for Lorain County Transit
Attachments: LCT TIP Table Amendment 5-27-2009.xls

All,

Attached is Lorain County Transit's Transit TIP amendment.

The purpose of this correspondence is to inform you of a technical amendment to the SFY 2008 – 2011 Transit TIP involving the following project:

Intermodal Transportation Facility: PID No. 77991 - This project involves the renovation and restoration of the historic New York Central Train Station (Old Railroad Station NR 79002714) into a multi-purpose facility that will serve the transit needs of Lorain County and create an attractive space for public events.

Lorain County Transit has a grant application in TEAM (OH-04-0007-01) that requires this amendment. This project's funding involves earmarks unrelated to ARRA funding. The earmark from 2007 was not applied for and not listed in the TIP. The earmarks for 2008 (T-0800) and 2009 (T-0812) are listed in the TIP but the federal funding amounts do not match. The 2009 (T-0812) earmark lists the federal funding source as 5307 however the source should be 5309. The primary reason for the amendment is that the costs are being adjusted to match the earmark amounts. This project has had substantial local input throughout its development.

Attached is a technical amendment sheet portraying the project.

Please incorporate this transit TIP technical amendment into the July STIP amendment as well as Ellis project management system as appropriate to enable the sponsor to access funds as needed.

Please contact me if you have any questions.

Thank you,
Edward S. May
