0 1 2 Miles

NOACA is the fully designated agency responsible for performing the following functions:

- Serves as the Metropolitan Planning Organization (MPO), with responsibility for comprehensive and continuous planning for highways, public transit, airports, waterways and bikeways, as defined in the current U.S. surface transportation act.
- Perform continuous water quality, transportation-related air quality and other environmental planning functions.
- Administer the area clearinghouse function, which includes providing local governments with the opportunity to review a wide variety of local or state applications for federal funds.
- Conduct transportation and environmental planning and related demographic, economic and land use research.
- Serve as an information center for transportation and environmental planning assistance to the 172 units of local, general purpose government.

Preparation of this publication was financed by grants from the U.S. Department of Transportation (Federal Highway Administration), paired with grants from the Ohio Department of Transportation, matched by appropriations from the municipalities within and counties of Cuyahoga, Geauga, Lake, Lorain and Medina
