- Schedules

Draft Purpose and Need

■ Purpose

- Support growth consistent with land use plans
- Reduce congestion to provide improved access to I-90

Future Traffic Forecasts

■ Methodology

- Use existing traffic and NOACA travel demand model as a base
- Overlay a commercial development scenario for year 2030
- Use ODOT certified traffic for level of service analysis

Recommendation of Avon Access Study

- New interchange at Nagel Road and I-90
- Widening of Nagel Road and improving adjacent intersections
- Improvements at SR 83 interchange and adjacent intersections
- All costs to be funded by local government
 - Tax Increment Financing
 - Direct payments from businesses
 - Avon general funds
