Wheezer’s Action Plan
Coloring Book

See what Wheezer the Forecasting Groundhog wants you to know about Air Pollution
Air Pollution is a serious problem!

But where does air pollution come from?

Come on!

Let’s go hunt for pollution sources.
What Sources of Air Pollution did you see?

Here are sources Wheezer found:

1. Car
2. Truck
3. Power Plant
4. Factory
5. Lawnmower
6. Tractor
7. Airplane
8. Campfire
9. Air Conditioner
10. Chimney
11. BBQ Grill
12. Paint Fumes
Air Pollution, like the kind that comes from idling cars, is dangerous to growing lungs!
Air Pollution gets in children’s lungs and triggers their Asthma!
It is time to take ACTION!

Look at the things my friends are doing to combat Air Pollution!
We see so much more when we walk!
Plan your trips and save on gas!
Look Whooo is riding the bus!
Carpooling is fun! We help the air when we ride together!
Look online to see Wheezer’s forecast every day!
Check Today’s Air Quality and sign up for free email Air Quality Advisories at www.noaca.org
This coloring book is brought to you by the Northeast Ohio Areawide Coordinating Agency (NOACA) in partnership with the Ohio EPA, the City of Cleveland Division of Air Quality, the Akron Regional Air Quality Management District, the Akron Metropolitan Area Transportation Study, and the Lake County General Health District.

Wheezie the Forecasting Groundhog is the official mascot of NOACA’s Ozone Action Day and Fine Particle Pollution Programs. NOACA is a planning agency that addresses the transportation, air quality, and water quality needs of Cuyahoga, Geauga, Lake, Lorain and Medina counties.
