● **Comments:**

The purpose of this correspondence is to inform you of a technical amendment to the SFY 2008 – 2011 Transportation Improvement Program (TIP), dated May 11, 2007, involving the following projects:

**CUY SUPERIOR RD/FOREST HILL BLVD & NOBLE RD/TERRACE RD: PID No. 86852** – This project (listed in Ellis as CUY SUPERIOR RD/NOBLE RD) involves removing portions of the existing median to provide dedicated left-turn lanes along Superior Road at Forest Hill Boulevard and replacing the entire traffic installation with new mast arm poles and state of the art equipment to make the intersection fully actuated. This project also includes upgrading traffic signals, signs and pavement markings at the intersection of Noble Road and Terrace Road, in the City of East Cleveland. The City of East Cleveland is the project sponsor. This project needs to be amended to the TIP to allow the project sponsor access to federal funds to begin preliminary engineering work. Ninety percent of the preliminary engineering cost will be funded with State Surface Transportation Program (S/STP) funds. The remaining ten percent of the preliminary engineering cost will be funded with local funds.

Attached is a technical amendment sheet portraying the project in the appropriate year.

Please incorporate this technical amendment into the next STIP amendment as well as Ellis management system as appropriate to enable the sponsors to access funding as needed.

Please contact me if you have any questions.
