The purpose of this correspondence is to inform you of a technical amendment to the SFY 2008 – 2011 Transportation Improvement Program (TIP), dated May 11, 2007, involving the following projects:

CUY LAKEWOOD SIGNALS (PHASE II): PID No. 82794 – This project is listed on page 44 of the Transportation Improvement Program (TIP), dated May 11, 2007. The project, sponsored by the City of Lakewood, involves upgrading signals along Detroit Avenue, from Arthur Avenue to Cohasset Avenue, in Lakewood. The City of Lakewood obtained a FY 2009 Appropriations Earmark (TC0904) in the amount of \$332,500 for proposed streetscape enhancements (CUY LAKEWOOD STREETS-CAPE: PID No. 87617). The proposed streetscape enhancements are located within the termini of the traffic signal project. The sponsor wants to incorporate elements of the streetscape enhancement into the signal project for and add a portion of the appropriations earmark funding to the signal project. The streetscape elements to be incorporated into the signal project include decorative signal poles, decorative street name signs and decorative informational signs. The estimated cost of these elements is \$274,556. Therefore, \$219,645 of FY 2009 Appropriations Earmark funds should be added to this project's funding. The sponsor will provide the twenty percent non-federal match of \$54,911.

LOR/MED SR-252 - 00.00/00.93: PID No. 25659 - This project was processed and amended to the TIP on September 14, 2007 (Resolution No. 2007-033). The project involves resurfacing SR-252, from Spieth Road to the Medina County line, in York and Liverpool Townships (Medina County) and from the Lorain County Line, to Sprague Road along the Lorain/Cuyahoga County line, in Columbia Township (Lorain County). The estimated cost was originally \$3,048,527. The estimated cost should be increased from \$3,048,527 to \$4,368,847.

Attached is the technical amendment sheet portraying the projects in the appropriate years.

Please incorporate this technical amendment into the April STIP amendment as well as ellis management system as appropriate to enable the sponsor to access funding as needed.

Please contact me if you have any questions.
