Comments:

The purpose of this correspondence is to inform you of an amendment to the NOACA SFY 2018 – 2021 Transportation Improvement Program, June 2017 (TIP) involving the following projects:

- **CUY IR 090 26.16/VAR: PID No. 87628** – This project involves replacing the decks of three mainline bridges on IR-90, over East 185th Street, Neff Road and East 200th Street, in Cleveland. The project was originally processed through project planning review and amended to NOACA's long range transportation plan, Connections 2030, in December 2012. The project is included in the list of the projects added to the STIP/TIP by Statewide Line Item (SLI) Grouped Projects, listed on page 65 of the SFY 2018 – 2021 TIP, programmed with National Highway Performance Program and State funds. NOACA was notified that the project has been identified for a funding swap of preservation funds with Garvee Bonds. NOACA has been requested by ODOT Office of Program Management to move this project from the SLI 32 Grouped Project List to the individually identified TIP project list.
- **LOR US006-09.67: PID No. 92013** – This project is listed on page 53 of the SFY 2018 – 2021 TIP. The project involves repairing a bridge on US-6, over CSX RR and the Black River, in Lorain. NOACA was notified that Garvee has been added to the project. NOACA has been requested by ODOT Office of Program Management to reflect the project's funding accordingly.

Attached is the technical amendment sheet portraying the projects in the appropriate year.

Please incorporate this technical amendment into the next STIP amendment as well as ellis as appropriate to enable the sponsors to access funding as needed.

Please contact me if you have any questions.

SFY 2018 - 2021 Transportation Improvement Program
