NORTHEAST OHIO AREAWIDE COORDINATING AGENCY

MEMORANDUM

TO: NOACA Board of Directors

FROM: Grace Gallucci, Executive Director

DATE: September 1, 2017

RE: Resolution 2017-038: Statewide Congestion Mitigation Air Quality (CMAQ) Applications

ACTION REQUESTED
The Board of Directors is asked to approve the slate of recommended projects for submission and the assignment of Regional Priority Points as required under the statewide CMAQ policy. Staff presented the project applications for information to the NOACA Air Quality Subcommittee and Transportation Subcommittee at their respective meetings in June 2017, and for recommendation of an approach for the assignment of regional priority points to the Planning and Programming Committee at their July 2017 meeting.

BACKGROUND/JUSTIFICATION FOR CURRENT ACTION
In November 2012, the statewide CMAQ program replaced the individual programs historically administered by the eight largest MPOs. These MPOs represent the greater regions Akron, Canton Cincinnati, Cleveland, Columbus, Dayton, Toledo, and Youngstown. The CMAQ program provides funding for transportation projects and programs to reduce congestion and improve air quality for areas that do not meet National Ambient Air Quality Standards for ozone, carbon monoxide, or particular matter. Approximately $145 million is available statewide for SFYs 2022-2023, of which NOACA expects to receive approximately $43 million based on further changes to the statewide program that reverts back to the historical allocations.

NOACA announced the solicitation for new projects in April 2017 and applications were due May 2017. NOACA received 24 applications totaling over $150 million. NOACA staff has completed evaluation and scoring of each CMAQ application in accordance with the statewide program policy project scoring criteria. The criterion includes:

1. Project Type (10 points)
2. Cost Effectiveness (20 points)
3. Other Benefits (10 points)
4. Existing Level of Service (15 points)
5. Positive Impact on Level of Service (15 points)
6. Status of Project (10 points)
7. Non-Federal Match Commitments (10 points)
8. Regional Priority (10, 7, 4, 2 points based on top four project priorities)
9. History of Project Delivery (up to -10 points) (Not applicable this funding round)

Criteria # 8, Regional Priority, is the only one in which NOACA has the ability to control the assignment of points. Therefore, staff requested the Planning and Programming Committee at its July 14, 2017 meeting to recommend an approach for the assignment of these points to four projects (10, 7, 4, and 2). The Committee recommended that points be applied strategically by staff to maximize CMAQ funding to the region.

Based on that direction, staff is recommending that the bonus points be assigned to projects that provide the greatest, furthest reaching benefits to the region’s air quality and multimodal transportation system. It would not be effective to assign bonus points to projects that would already score well, for example bus replacements. In accordance with this approach, our preliminary analysis demonstrates that bonus points would be assigned to the following four projects:

10 points – MIDWAY – SUPERIOR CORRIDOR
7 points – EAST 93RD AND 105TH MODAL
4 points – BLACK RIVER TRAIL EXTENSION PHASE 3C
2 points – BULK TERMINAL TUNNEL EXTENSION

Proposed regional priority bonus points have been incorporated into the preliminary draft evaluation scores for all projects. A summary of the applications received with preliminary draft evaluation scores is attached to this memo.

FINANCIAL IMPACT
There is no direct financial impact to NOACA at this time, but the scoring approach will give an advantage to four projects in the quest for funding. In October 2017, a total of approximately $43 million for transportation projects that improve air quality and reduce congestion will be approved by the Statewide CMAQ Committee.

CONCLUSION/NEXT STEPS
With Board with approval, staff will submit scored applications to the Statewide CMAQ Program Committee for evaluation in September 2017 with approvals expected in October 2017.

RESOLUTION OF THE BOARD OF DIRECTORS
OF THE
NORTHEAST OHIO AREA WIDE COORDINATING AGENCY

WHEREAS, the Northeast Ohio Areawide Coordinating Agency (NOACA) is the Metropolitan Planning Organization (MPO) for the counties of Cuyahoga, Geauga, Lake, Lorain and Medina, and the areawide water quality management agency for the same region; and

WHEREAS, the Ohio Department of Transportation (ODOT) allocates Congestion Mitigation and Air Quality (CMAQ) funds to urban areas of Ohio for transportation projects and programs that reduce congestion and improve air quality for areas that do not meet the National Ambient Air Quality Standards for ozone, carbon monoxide, or particular matter; and

WHEREAS, in November 2012, the statewide CMAQ program replaced the individual programs historically administered by the eight largest MPOs; and

WHEREAS, these MPOs represent the greater regions Akron, Canton Cincinnati, Cleveland, Columbus, Dayton, Toledo, and Youngstown; and

WHEREAS, in April 2017, NOACA announced the solicitation of applications for new projects targeted for implementation for state fiscal year 2022 and 2023; and

WHEREAS, approximately $145 million is available statewide for SFYs 2022-2023, of which NOACA expects to receive approximately $43 million based on further changes to the statewide program that reverts back to the historical allocations; and

WHEREAS, NOACA staff has completed evaluation and scoring of each CMAQ application in accordance with the statewide program policy project scoring criteria; and

WHEREAS, NOACA has the ability to control the assignment of Regional Priority points in the denominations of 10, 7, 4, and 2 points to four regionally significant projects, as required by the statewide CMAQ program policy; and

WHEREAS, options for the Board’s assignment of these points were presented to the Planning and Programming Committee for recommendation; and

WHEREAS, the Planning and Programming Committee recommended that points be applied strategically by staff to maximize CMAQ funding to the region; and

WHEREAS, staff recommended that the bonus points be assigned to projects that provide the greatest, furthest reaching benefits to the region’s air quality and multimodal transportation system:

- 10 points – MIDWAY – SUPERIOR CORRIDOR
- 7 points – EAST 93RD AND 105TH MODAL
- 4 points – BLACK RIVER TRAIL EXTENSION PHASE 3C
- 2 points – BULK TERMINAL TUNNEL EXTENSION

In accordance with this recommendation, bonus points would be assigned accordingly; and
WHEREAS, staff determined this recommendation in careful review of all projects against factors associated with greatest regional air quality benefits and the limited amount of statewide program funding available; and

NOW, THEREFORE, BE IT RESOLVED by the Board of Directors of the Northeast Ohio Areawide Coordinating Agency, consisting of 45 principal officials serving general purpose local governments throughout and within the counties of Cuyahoga, Geauga, Lake, Lorain, and Medina that:

Section 1: Regional priority points will be assigned to CMAQ project applications.

Section 2: Recommended project applications contained in Attachment 1 will be submitted for approval to the Ohio Statewide Urban CMAQ Committee.

Section 3: The Executive Director is authorized to transmit certified copies of this resolution to appropriate federal, state, and local agencies.

Certified to be a true copy of a Resolution of the Board of Directors of the Northeast Ohio Areawide Coordinating Agency adopted this 8th day of September 2017.

Secretary: [Signature]

Date Signed: September 8, 2017
