Comments:

The purpose of this correspondence is to inform you of an amendment to the NOACA SFY 2018 – 2021 Transportation Improvement Program, June 2017 (TIP) involving the following project:

- **LOR Third St Deck Overlay: PID No. 106779** – This project was split from LOR THIRD ST PID No. 91041. The project involves replacing the concrete deck on Third Street, in the City of Elyria. The original scope for PID No. 91041 called for patching of the deck, however during construction it was determined that an overlay was the preferred treatment given the condition. Normally a change in construction would be assumed by change order, however, due to the cost, it was determined by ODOT District 3 construction that the work would benefit from additional competitive bidding. Therefore the work was programmed as an individual PID to be completed immediately following PID No. 91041.

Attached is the technical amendment sheet portraying the project in the appropriate year.

Please incorporate this technical amendment into the next STIP amendment as well as ellis as appropriate to enable the sponsor to access funding as needed.

Please contact me if you have any questions.
